Austin, TX · priya@example.com

Experience

Senior Frontend Engineer, Northwind Retail, Austin, TX (2021-03 to Present)

- Cut the checkout page's largest contentful paint from 4.1s to 1.6s by code-splitting the payment widgets and preloading fonts.
- Led the migration of 40 React class components to hooks and TypeScript, with no regressions in the visual test suite.
- Built a server-driven UI layer in GraphQL so merchandisers could change the home page without a deploy.
- Mentored four junior engineers through weekly code reviews and pairing sessions.

Software Engineer, Contoso Health, Remote (2018-06 to 2021-02)

- Wrote a Node.js service that reconciled insurance claims nightly, processing 2 million rows in under 20 minutes.
- Set up GitHub Actions pipelines with Playwright end-to-end tests, cutting release time from a day to an hour.
- Moved the patient portal's infrastructure to AWS with Terraform, including RDS Postgres and CloudFront.
- Added WCAG 2.1 AA fixes across the patient portal after an accessibility audit.

Projects

- Built an open-source Chrome extension that summarizes pull requests, with 3,000 weekly users.

Education

M.S. Computer Science, University of Texas at Dallas, 2018

Certifications

AWS Certified Developer – Associate, 2022

Skills

React, TypeScript, Node.js, GraphQL, AWS, Terraform, Playwright
